

[YFDC-L: A large Fibre Distribution Closure](#)

**Description**

The L Fibre Distribution Closure is a high quality- high capacity closure designed to enable a fast, safe and fault-free installation. The closure benefits from a modular design that can hold up to 504 splices fitted onto up to 6 trays.

It can take up to 17 cables which can be sealed either through heat shrinkable sleeves or through cold seals (all supplied by Yaoz).

The closure's rugged design enables operators to install it on a wall, pole, underground or in a manhole.

This closure is IP68 certified.

The closure, like all of Yaoz Solution's closures, is made of Fortified Polypropylene for robust performance in all weather conditions.

**Features**

- Compact design: H 25.51 x W 10 x L 13.54 in (648 x 225 x 344 mm)
- Fits up to 6 trays
